Summary

As a Senior Mobile App Developer, I have proven and solid experience in mobile app development. Over 7 years of deep mobile app development experience plus additional years of full-cycle experience in multiple roles and environments, including healthcare, fitness, social networking, financial, medical, and management.

Whether you just need capable manpower, need to hire someone for a one-off or long term task, or want a brand new app, I would be glad to step in and help!

My Skills:
- Native Mobile(iOS&Android): Objective-C, Swift, Core-Java, Kotlin, C#
- Hybrid: React Native, Ionic, Expo, Flutter, NativeScript, Xamarin
- React, Angular, Node
- Team work: Trello, Jira, Asana
- Source code Management: Github, Bitbucket
- Firebase, AWS, Azure DevOps

Thanks for reviewing!

Experience

Senior Mobile App Developer
Capital One

Mar 2020 - Dec 2022 (2 years 10 months)
